

ISMS Policy

Kolos is committed to ensuring the confidentiality, integrity, and availability of its information assets, benefiting its employees, customers, shareholders, third parties, and other stakeholders. Recognizing the ever-evolving landscape of information security threats, Kolos has aligned its Information Security Management System (ISMS) with the updated international standard, ISO 27001:2022.

To stay aligned with its strategic vision, Kolos pledges to:

1. Communicate and enforce the ISMS Policy throughout all organizational tiers, ensuring its availability for stakeholders and interested parties.
2. Remain compliant with applicable laws, regulations, contractual obligations, and the specific mandates of ISO 27001:2022.
3. Assign, articulate, and communicate roles, responsibilities, and authorities tied to information security to ensure accountability.
4. Implement a risk management strategy to continuously identify, evaluate, and address information security risks, adapting to new threats and vulnerabilities.
5. Allocate necessary resources, both human and technological, to maintain, improve, and evolve its ISMS.
6. Commit to ensuring the confidentiality, integrity, and availability of information throughout its processes.
7. Proactively safeguard its information assets from unauthorized logical and physical intrusions or alterations.
8. Develop, sustain, and periodically test business continuity plans to guarantee operational resilience.
9. Foster an information security awareness culture through continuous training and educational programs for all employees and relevant stakeholders.
10. Regularly monitor the effectiveness of the ISMS, refining its processes through systematic internal audits and executive management reviews.
11. Uphold and enhance an ISMS that not only aligns with the specifications of ISO 27001:2022 but also commits to its continual improvement, adjusting to new challenges and emerging threats.
